Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, drawn to an apparatus and method for electronically processing a check received by a merchant, classified in class 235, subclass 379.
 - II. Claims 19-46, drawn to an apparatus and method for processing a financial transaction, classified in class 705, subclass 40.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I and II drawn to two different classes/subclasses (i.e., 235/454 and 705/40). The invention I includes a specific system and method for electronically processing a check received by a merchant comprises scanning and converting the check into an electronic data comprising an authorization data and an image data, transferring authorization data for authorizing, storing the check image and a processor for facilitates a batch uploading of the stored check images, etc., which is directed to class/subclass 235/379. The invention II includes a specific system and method for processing a financial transaction comprises, among other things, performing at least one function that mitigates an adverse condition

of an throughput associated with processing of the plurality of non-face-to-face payments, which is directed to class/subclass 705/40. Therefore, the invention of Group I and Group II are distinct from each other.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
